

# Sound Warriors Competition

Turn your ideas in our next short video!

Can you create a storyboard to explain to your friends how they can recognise if things are too loud and how they can protect their hearing?

This is the storyboard that we used to create our first video. We created it using a free version of Canva.com

<https://youtu.be/UR0ZChjTnyE>

You can use any

software, or draw your ideas by hand.

We will feature the best Story boards on our website. Our professional filmmakers will make a film of your ideas and, and give you and your friends the opportunity to be the main stars!

You can even include royalty free music from <https://uppbear.io> and free sound effects from <https://sound-effects.bbcrewind.co.uk>

Send your creation to [hi@Soundwarriors.org](mailto:hi@Soundwarriors.org).

Competition Closes 15 February 2022
